*Percentage – 68%*

## TECHNICAL SKILLS

**Languages:** C, C++, JavaScript, Python

**Web/Frameworks:** HTML/CSS

**Developer Tools:** Git/Github, VS Code,

**Databases:** MongoDB, MySQL

## PROJECTS

### Tic Tac Toe | [Link](#)

C++

- Developed a Tic-Tac-Toe game in C++ to strengthen understanding of fundamental programming concepts.
- Utilized input/output operations, control structures (if-else, loops), and array manipulation for game board representation.
- Emphasized modular coding by creating functions for key tasks such as board display, move validation, and winner detection.
- Implemented game logic for win and draw conditions, improving problem-solving abilities.

### Fleet RideShare (Bulk vehicle booking platform)

HTML, CSS, JavaScript

- Developed and managed Fleet Rideshare, a bulk vehicle booking platform for large events like weddings, parties, and tourism.
- Provides affordable and unique vehicle booking solutions, tailored to users' needs for special occasions.
- Enabled users to book multiple vehicles on demand through a seamless website interface.
- Implemented user-friendly features to enhance booking flexibility, allowing customers to easily manage vehicle reservations.
